

exocet[®] **RUSH101** (X01976P)
managing fuel quality

DESCRIPTION

Exocet[®] Rush101 is a high performance octane booster for petrol. It will increase the octane number of forecourt fuel up to 101 RON. It is intended for use by professional motorsport teams and at enthusiast track days.

APPLICATION

Exocet[®] Rush101 is supplied in canisters and can be added directly to the vehicle fuel tank or pre-mixed in the fuel can. Please take careful note of the handling instructions and precautions on the canister label.

BENEFITS

FEATURES

- ◆ Easy-to-use octane booster in a canister
- ◆ Proven in BMW racing
- ◆ Novel formulation

WHEN TO USE

- ◆ To increase the octane value of retail fuel
- ◆ To create higher octane fuel for track days
- ◆ For non-regulated race fuel

TREATMENT RATIO

500ml treats 50 litres of fuel

Available in 500ml canisters. Larger volumes available by request.
