

CETANE IMPROVER (X01977XB)

DESCRIPTION

Exocet Cetane Improver is used to increase the cetane number of gas oil and diesel.

APPLICATION

Exocet Cetane Number Improver can be added directly to the vehicle fuel tank or into bulk fuel storage.

BENEFITS

FEATURES

- Increases a fuel's cetane number
- At the given dose rate provides an approximately 2 number increase in cetane number dependent on the base fuel

WHEN TO USE

- When the cetane number of the fuel needs to be increased

TREATMENT RATIO

1 litre of additive treats 2,000 litres of fuel

All Exocet® branded products are available in a range of sizes to 1,000 litres
