

TREAT YOUR FLEET... THE BENEFITS ARE MANY FOR YOU... AND YOUR CUSTOMERS

The majority of our products are intended for supply on a B2B basis and many of our domestic fuel distributor customers use FAST's unique fuel additives to create premium fuels and to reduce field problems associated with an ever-changing base fuel. Our growing list of automotive applications leads us to ask you to consider the benefits of using them to protect and enhance the performance of your own fleet vehicles and engines.

OUR RECOMMENDATIONS:

Upgrade your standard diesel to premium grade with **DIESEL SUPREME**

Optimise your fuel flow and engine power with **DIESEL POWER RESTORER**

TYPICAL SAVINGS

Up to

4%

Reduction in fuel consumption

Up to

3.5%

Reduction in CO² emission

Up to

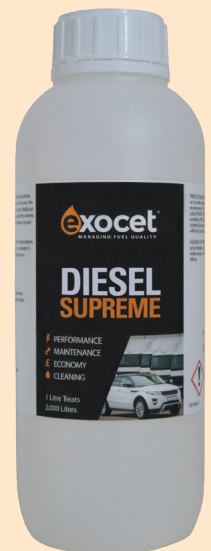

75%

Reduction in hydrocarbon emission

Up to

35%

Reduction in carbon monoxide (CO) emission

APPLICATION

exocet[®] Diesel Supreme can be added either to bulk storage or directly into the vehicle tank. It should be used where consistent and optimal power delivery is required; fuel economy needs to be optimised; diesel knock and engine noise minimised; and emissions reduction sought.

TYPICAL SAVINGS

Up to

4%

Reduction in fuel consumption

Up to

3.5%

Reduction in CO² emission

Up to

75%

Reduction in hydrocarbon emission

Up to

35%

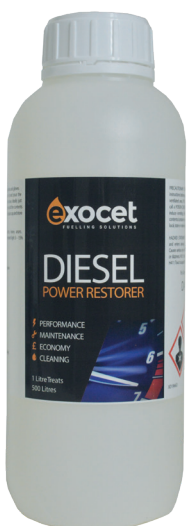

Reduction in carbon monoxide (CO) emission

APPLICATION

exocet[®] Diesel Power Restorer is used 'online' on a running engine, typically as part of a service. Proven increases in power and torque.

It works by breaking down and dispersing hard and soft particles that foul injectors and restrict fuel flow.

Ideal if used in conjunction with regular use exocet[®] Diesel Supreme

ENVIRONMENTAL BENEFITS

The supporting data for **exocet® Diesel Supreme** and **exocet® Diesel Power Restorer** in respect of engine performance and emissions quality is comprehensive and independently verified across a large range of operating conditions and geographies, including numerous fuel blends and types. It demonstrates without question that with consistent use of the products:

- Fuel economy is enhanced by up to 4%
- Reduction of up to 3.5% in Co² emission
- NOx reduction of up to 5%
- Injectors cleaned to “as new” condition after 5 fills – reduced downtime

These things contribute to any sustainability objectives that are current.

AS A REMINDER

FAST exocet® fuel additives are concentrated, technically-driven products blended from recognised and approved fuel additive components supplied by the world's leading formulators and application experts. The aim is to provide best in class performance.

We can deliver our fuel additives in various container sizes ranging from 50ml bottles to 1,000 litre IBC's and even in bulk if required.

Customers using exocet® fuel additives to upgrade fuel quality and/or to enhance equipment performance have found it has resolved many actual and potential problems and, as a result, have substantially enhanced their business in all aspects.

INTRODUCING PAUL DERHAM, MANAGING DIRECTOR

After 11 years our MD Neil Ryding decided he wanted a better work life balance which resulted in him choosing to exit the business. With the new position needing to be filled, parent company Millers Oils looked to existing management member Paul Derham to take on the role. 'It was clear that Paul's long commercial experience and his comprehensive product knowledge was extremely valuable, and it made sense to utilise this in the company's next chapter' said Millers Oils CEO Steve Cocking. 'With Future Fuels commanding such a high level of attention at the current time, FAST'S role to inform the industry of its choices is as important now as it has ever been'.

Paul started at FAST in 2014 bringing with him 20 years of management role experience. 'It is great role to be offered and a tremendous honour to fill the position. FAST is recognised as an industry leader in its field and its credibility is key to its success.

As we continue to be transparent and informative to our growing customer base, our customers can be assured that by using FAST'S products they will only enhance their offering to the end user and ultimately make the distributor more profit'.

“It is great role to be offered and a tremendous honour to fill the position.”
